Students & Industry:
Check out CMJobs.colostate.edu for online job postings
Note to students: Companies and Associations are invited to attend the CM Career Fair to expose students to a variety of employment opportunities within the construction industry. Participation in the Career Fair does not imply that employment counts towards Work Experience or CON487 Internship curriculum requirements - nor are they an endorsement from the department of any kind.

The department recognizes that all related work is valuable, however not all experience counts toward the internship requirements for graduation. Any student pursuing Work Experience or an Internship with a company or organization should confirm that it meets requirements with the Placement Office prior to accepting.

Alten Construction

Established in 1995 by Bob and Shannon Alten, Alten Construction, Inc. has grown from a small public works company to an employee base of more than 100 people and annual revenues of over $120 million. We began by performing ADA retrofits and seismic upgrades and advanced to building entire school campuses from the ground up. Our experience is extensive. From tenant improvements to historic buildings to fire stations and schools, we have executed a number of different types of construction all throughout the San Francisco Bay area in Napa, Sonoma, Solano, Marin, Contra Costa, Alameda and San Francisco County.

American West Construction, LLC

American West Construction, LLC (AWC) is a Denver based heavy civil construction company specializing in utility and earthwork construction. Among its core competencies are dam reconstruction, mass earthwork, wet utility construction, culvert rehabilitation, and channel construction. Established in 2002, AWC has excelled at complex and challenging projects throughout the Front Range and mountains of Colorado. AWC’s clients include the U.S. Army Corps of Engineers, Colorado Department of Transportation, Colorado Division of Parks and Wildlife, numerous cities and counties in Colorado, and several private clients. AWC’s exceptional employees have driven its success. Come build a better future!

Ames Construction

For more than half a century, Ames Construction has been delivering quality construction services to our customers. Founded in 1962, the company started as a small, family-run earthwork contractor that served a community. Today, Ames has grown into a full-service, heavy civil and industrial general contractor that serves customers throughout North America. While maintaining corporate offices in Minnesota, our regional offices are strategically located in multiple geographic areas in the US and Canada to support and serve our customers' ever-evolving project demands.

ARCO/Murray

Our goal is the same today as it was when we started in 1992: to be the very best design-build contractor in the industry. We use a proven design-build methodology to bring our clients' vision to life while delivering the very best experience. We have offices to serve clients from coast-to-coast – across an array of industries. Our expert team of in-house engineers, project managers, superintendents, modelers and architects are capable of designing and building the most demanding projects anywhere in the country.

Hensel Phelps is a company with a plan to succeed. Since 1937, we have grown from a small local builder in Greeley, Colorado into a multi-billion dollar national contractor. From planning and design, to construction, and facility management, we work to solve our clients’ challenges from start to finish, and beyond. Our clients, both domestic and international, have entrusted us with a tremendous range of landmark projects, in nearly every market sector. The best and brightest college graduates are trained under the seasoned eye of experienced company veterans to guarantee continuous quality outcomes from generation to generation.

Howell Construction

Howell Construction is a locally owned commercial general contractor in continuous operation since 1935. We provide general construction, design build and construction management services to our clients along the Colorado Front Range. We have a history of building in technically intensive, high-risk environments where the consequences of failure are high. We focus on four primary market sectors: Advanced Industries, Corporate Interiors, General Commercial, and Healthcare. Clients tell us that our resources, systems and technical experience are those of a large firm with the commitment and personal care of a smaller contractor. Our philosophy is to have a company principal involved on every project to bring knowledge, experience and oversight to ensure exceptional service and a quality project.

Webcor Builders

Webcor Builders is among the leaders in large-scale, commercial construction in California. We have defined the skylines of San Francisco and Los Angeles for the last 44 years, and in 2014 expanded our offices into Honolulu. As industry leaders, our self-performing concrete and interior construction divisions pursue and execute projects independently from our general contract operations. With currently over 1,000 employees and over $3 billion of contracts in place, Webcor has served clients such as Samsung, Genentech, Oracle, eBay, Lucasfilm, and the California Academy of Science for more than forty years. In 2014 we earned ENR California’s Contractor of the Year award, and ranked #50 in ENR’s Top 400 Contractors in 2015 for our solid performance revenue, compelling slate of contemporary and bold projects, commitment to sustainability, and community involvement.
